

To whom it may concern,,we never thought that we would ever pay to listen to radio..but we can not believe, having been an xm customer for several months now, how anyone could even consider taking away that priveledge..it is my choice and my choice alone..the quality of xm is beyond compare, quality programming and weather and traffic updates.. We respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that we demand and deserve. Fred Goodrow
